

Vol. 28 No. 13

Irma, Alberta, Friday, September 25th, 1942

Wainwright S.Div. Proposes Changes in Salary Schedule

Minutes of meeting of the board of trustees of the Wainwright school division No. 392, held at the office of the secretary, Wainwright, Alberta, Sept. 9, 1942.

Trustees present—H. E. Spencer, J. C. McLean, T. Sanders, F. E. Dixon and M. J. Nicholson. Mr. J. F. Watkin, school superintendent was also in attendance.

The meeting was called to order at 9:30 a.m.

Moved by Mr. Sanders that the minutes of August 20 meeting be adopted as corrected. Cd.

Moved by Mr. Spencer that Lewisville school be closed and that the closing of Airlie school be considered. Cd.

Moved by Mr. Spencer that the coal bin at Arm Lake school be sold to the highest bidder before Sept. 16, 1942. Cd.

Moved by Mr. Dixon that school public liability insurance in the amount of \$5,000.00 for one person and \$10,000.00 for one accident be placed with the Commercial Casualty Insurance Company on the yearly premium basis. Cd.

Moved by Mr. Spencer that the matter of renting the barn at House Lake school be left in the hands of Mr. Dixon. Cd.

Moved by Mr. Sanders that teachers' applications be left in the hands of Mr. Watkin. Cd.

Moved by Mr. Spencer that we endorse the appointment of Mrs. Whitby as teacher at Rosemary school. Cd.

Moved by Mr. Spencer that we recommend the following changes in the Branch Salary Schedule to Branch No. 3 N.E. of the A.S.T.A. on November 3rd and in the meantime that these changes be made in the salary schedule of the Wainwright school division adopted by motion No. 16 of the July 16 meeting:

Article II—Add the words "At the beginning of" before the words "2nd year."

Article III—After the words "employed by the Board" add

the following clause: "Teachers resuming employment after five years absence shall receive no increment for previous experience."

Article V—Delete the words "and Teachers holding lapsed certificates" and add the word "and" between the words "Teachers and Temporary."

Moved by Mr. Spencer that the superintendent's report on tuition be approved. Cd.

Moved by Mr. Nicholson that the meeting adjourn until 1:30 p.m. Cd.

The meeting was called to order at 1:30 p.m.

Moved by Mr. Dixon that we comply with the School Act regarding flags and flagpoles commencing at the highway. Cd.

Moved by Mr. Nicholson that accounts payable statement No. 11 in the amount of \$3,614.80 be approved for payment and the statement recorded in the minutes. Cd.

Mr. Spencer gave a report on the activities of the A.S.T.A.

Moved by Mr. Sanders that the attached Resolution No. 1 be forwarded to Mr. Reay, branch secretary. Cd.

Moved by Mr. Spencer that the attached Resolution No. 2 regarding section 157 (b) of the School Act be forwarded to Mr. Reay, branch secretary. Cd.

Moved by Mr. McLean that the attached Resolution No. 3 be forwarded to Mr. Reay, branch secretary. Cd.

Moved by Mr. Sanders that additional list of accounts No. 11A in the amount of \$1,008.07 be approved for payment and the list recorded in the minutes. Cd.

Moved by Mr. McLean that the meeting adjourn. Next meeting to be held October 9, at 9:30 a.m. Cd.

RESOLUTION No. 1

RESOLVED that the following alterations be made in the proposed Uniform Salary Schedule of Branch No. 3 N.E. of the A.S.T.A. Article I—Add the words "At the beginning of" before the words "2nd year."

Article III—After the words "employed by the Board" add the following clause: "Teachers resuming employment after five years absence shall receive no increment for past experience."

Article V—Delete the words "and Teachers holding lapsed certificates" and add the word "and" between the words "Teacher" and "Temporary."

RESOLUTION No. 2

WHEREAS it is important that divisional Boards be in a position to make staff allocations before the closing of the June term; and whereas, under section 157, sub-section 1(b) of the School Act, a teacher is allowed until the 20th day of July to give notice to a Board of termination of contract or engagement;

BE IT RESOLVED that this convention request the government to alter Section 157, sub-section 1(b) of the School Act to read as follows:

"that no notice to terminate a contract or engagement which takes effect in any month except in the month of July shall be given without the approval of the Minister previously obtained; Provided that any notice to terminate a contract or engagement which takes effect in the month of July shall be given to the Board on or before the preceding twentieth day of June;"

RESOLUTION No. 3

WHEREAS as far back as 1920 when the financial position of the rural population of the province was far better than at present, provincial grants to rural public schools were \$1.10 per day for a 210-day school year; and

WHEREAS the provincial government's income has steadily risen in the meantime, whilst the aforesaid grants declined to 75 cents per day for a 200-day school year; and

WHEREAS other government expenditures which had previously been reduced have since been raised to the former level, educational, former level of grant payments.

MUNICIPAL DISTRICT OF WAINWRIGHT, No. 392, Wainwright, Alberta

Notice to Ratepayers

PUBLIC NOTICE is hereby given that there has been introduced in the Council of the Municipal District of Wainwright, No. 392, a By-law for the purpose of restraining Domestic Animals from running at large within certain areas of the Municipal District.

A copy of the said By-law may be seen in each of the following places: At each of the following post offices, Chauvin, Ribstone, Edgerton, Hope Valley, Heath, Greenshield, Wainwright, Fabyan, Gilt Edge and Irma, and also at the residence of your local councillor, and in the municipal office at Wainwright.

You are further notified that unless within thirty days of the publication of this notice at least forty proprietary electors of the portion of the Municipal District concerned by this By-law petition the Council to submit such By-law to the vote of the proprietary electors of the said portion of the municipal District the Council will proceed to pass the same.

Dated this 17th day of September A.D. 1942.

By order,
H. U. Taylor,
Secretary-Treasurer.

World of Wheat

by H. G. L. Strange
Director of the Searle Grain Co.

A Pressing Prairie Problem

The Canadian government asked our prairie farmers to reduce wheat acreage and to increase acreage in coarse grains, all in order to produce more bacon and livestock products. All this the prairie farmers did in full measure, but Nature, with unexpected bounty, has given us a high yield on the greatly reduced acreage.

Our government, however, has only agreed to buy 280 million bushels of this crop, yet our farmers will have to pay out much cash money to harvest and store ALL the crop. It seems to me, therefore, that in justice to our prairie farmers, our government ought to purchase this year not 280 million bushels of this crop (the government will probably dispose of much more than 280 million bushels) but ALL the crop.

It will, however, be some time before storage space will be available to take all the crop. In the meantime, therefore, the government might also make a cash advance to our farmers that would cover the costs of harvesting, threshing and storing on the amount of wheat farmers have to sell over and above the 280 million.

The United States government is making advances to their farmers of around \$1.16 a bushel on all the large wheat crop produced this year.

BIRTHS

Born to Mr. and Mrs. Allen Taylor of Fabyan, at the Wainwright hospital on September 17, a daughter.

Born to Mr. and Mrs. W. Matthews at Mannville hospital, on September 17, a daughter.

Born to Mr. and Mrs. Bruce Hadlow at the Royal Alexandra hospital, on September 18, a daughter.

grants still remain at the low point in the effect of all this being an in-supportable burden and great injustice to rural education;

THEREFORE BE IT RESOLVED upon this convention impress upon the provincial government the vital necessity of returning to the former level of grant payments.

This week we'd like to tell you about some musical programs on CJCA. We receive many comments on the type of music heard on the air-waves, the majority favorable, and some not so favorable. No one wants to hear symphony from morning to night any more than they do swing opera or boogie-woogie, so we try to give a balanced diet. Let's pick out a few to show you what we mean by variety.

If it's classics you favor, be sure to hear the BC Recital Series, on Wed. and Fri. at 4:15, and Sun. Mon. and Thurs. at 10:30 p.m. Recital Series presents both vocal and instrumental artists whose reputations range from Debussy and Bach to Gernon and Victor Herbert. And most everyone listens to "Album of Familiar Music" on Sunday evenings at 7:30 because, as the title implies, every number is a familiar one. The songs range from adaptations of operas to a familiar folk song, ditty or Tin Pan Alley ballad. Frank Munn, Vivian della Chiesa and Jean Dickenson share the vocal honors with the Buckingham Choir as a pleasing background.

When it comes to variety in popular music, you'll have to admit that the Kraft Music Hall supplies plenty of that, with Bing Crosby, Mary Martin and the Merry Macs. The gang at the Music Hall are out to bring you the hits of the day, as well as some of the hits of days gone by. It was the Merry Macs who introduced the popular "Jingle Jangle, Jingle," to the air-waves.

On Tuesday evening at 8:30 Eric Alan Young as m.c. to bring you a Rhythm orchestra combine with Alan oung as m.c. to bring you a sparkling half hour of mirth and melody. Eric's smooth, melodic arrangements, and Alan's gay wit make a combination you're sure to like.

Never turn pastry over when you are rolling it. You can turn it around to roll it in better shape, but the less handling it gets, the more tender your pastry will be.

Canada's War Effort

A Weekly Review of Developments on the Home Front.

September 10-17, 1942

1. Purchase of typewriters by civilians is prohibited on authority of Wartime Prices and Trade Board.

2. Hon. W. D. Herridge, in address to Ottawa Kiwanis Club urges President Roosevelt to be leader of United Nations.

3. R.C.A.F. participates in big raid on Dusseldorf.

4. Prime Minister King reviews Canada's war effort in national radio broadcast.

5. Wartime Prices and Trade Board issues order rendering illegal unauthorized use of its name by business concerns.

6. Effective September 20, sharp curtailment in non-essential uses of electricity in power shortage areas of Ontario and Quebec announced by Munitions Minister Hon. C. D. Howe.

7. Three R.C.A.F. squadrons participate in 100th attack of the war on Bremen.

8. Canadian patrol vessel Racoon presumed lost with all hands on board, Naval Service Headquarters announces.

9. Elliott M. Little, director of National Selective Service, speaks and conducts question period at Canadian Congress of Labor Convention, Ottawa.

10. First Chilean Minister to Canada, Dr. Eduardo Grove, presents Letter of Credence to Sir Lyman Duff, deputy governor general.

11. Dieppe casualty totals issued.

12. Phillip Murray, C.I.O. president, appeals to Canadian Congress of Labor convention in Ottawa for policy of no strikes during the war.

13. Power Controller Symington orders Ontario Hydro Electric Power Commission to reduce load supplied to two companies in Thorold, Ontario.

ELEVATORS UNABLE TO HANDLE TOUGH OR DAMP GRAIN

The Honorable D. Bruce MacMillan, minister of agriculture for Alberta, has issued the following statement with regard to the harvesting and threshing of the Alberta grain crop:

"Alberta's wheat and coarse grain crop this year has possibilities of producing highest yields in the history of the province. Unfortunately adverse harvest weather, with wind and rain, has prevailed with the result that crops in most sections are two weeks late in ripening with considerable lodging in many fields.

"The combining of lodged crops or immature crops is sure to yield tough or damp grain. Too early threshing will be equally disastrous. Grain which is to be stored must be dry because of limited storage facilities. Tough grain must be moved frequently and this cannot be done in over-crowded elevators or home granaries.

"Elevator agents will be compelled to refuse storage for tough grain. Risks are too great. Threshing may take place in bins which may not only spoil the grain but which may also cause fire in the elevator. Grain mites also thrive when the moisture content of the grain is high. Farm storage of tough grain is subject to the same risks.

"Farmers throughout the province should avoid threshing or combining until grain is dry. The crop is safer in the field than when stored in a tough condition in a bin.

"The provincial department of agriculture asks for the co-operation of all farmers in connection with the above matters."

ELMER ROPER, C.C.F. CANDIDATE ELECTED

Elmer E. Roper, C.C.F. candidate in the Edmonton by-election held Tuesday, was elected on the second count. J. F. Lymburn, Independent candidate, was a strong second. Social Credit, Veterans' and Liberal candidates trailed behind.

The smaller the tea leaf, the more tender the leaf and the better the flavor of the tea.

News of Our Boys

PO. R. H. Simmermon was home from Saskatoon last week-end on leave.

Pte. Jas. Stead was home this week on short leave.

Roland Bick of Jarrow has enlisted for air crew duties with the R.C.A.F. and will commence training on September 29.

The LETTER BOX

Editor, Irma Times.
Dear Sir:

The recent Edmonton by-election from a C.C.F. viewpoint is the best news since J. W. Nosenworthy defeated ex-senator Arthur Meighen in February, 1942.

It shows quite clearly that the people of Edmonton are not satisfied with the old line parties or with the present government and are determined at last to try the only political party that stands for social progress.

Any fair minded person, C.C.F. or otherwise, should surely like to see the C.C.F. have a voice in the affairs of the province, especially seeing that they polled about 35,000 votes in the last general election in 1940.

To us in the movement it represents a definite step forward. It is very satisfying to know that we are going ahead slowly but surely even under the present very trying conditions.

As for Mr. Roper himself, he has long been connected with the labour movement in the city of Edmonton and at other places and should therefore serve the interests of the working class better than a man who has had no experience along these lines. Looking at it from this viewpoint the Edmonton by-election has turned

Wilfred C. Sanders.
—Y—

The Editor,
Dear Sir:

The publicity which has been given to the bumper crop which is in prospect in Alberta no doubt leads many people to think this will be a money making crop for the farmers. As a matter of fact it will not be so. Production costs have been high and all of the 20c raise in the price of wheat has been absorbed by production costs.

The plentiful rain in the summer caused a heavy growth of straw which the wet and windy weather has caused to go down. This will make harvesting a hard, difficult and expensive job both for men and machinery and with the shortage of labor especially the skilled variety it is doubtful if all the crop can be harvested. Many farmers have expressed the opinion that this crop will cost them more than it is worth and they will harvest what they can and just let the rest go.

It is only fair to the farmers that all the citizens of the province should know these facts because the mortgage companies are adopting the attitude that higher prices for cattle and hogs during the brief spell of a few months duration will enable farmers to pay the interest and principle on debts accumulated during the past 12 years of despondency.

This belief has been encouraged by our minister of agriculture, Mr. J. G. Gardiner who optimistically envisions three or four good crops "like this" before the first one is harvested; and suggests that from these "prospective good crops" the sowing of which will not take place until from one to three years hence the farmers should not only pay their debts but SAVE.

Our minister of agriculture should refrain from making statements which not only leave a false impression but also make him look ridiculous.

Yours truly,
H. E. Nichols,
Secretary, Alberta Farmers' Union

To prevent the lint from white clothes showing up on colored clothes when laundering, use separate fresh sudsy water for the colored clothes. It takes a little extra time to start with but the finished product makes it worth the trouble.

Tires Tires

Patch up your tires with tire savers of which we have a new supply, a new kind of tire boot, the best yet.

Fourth Year Of War

THE WAR HAS NOW ENTERED its fourth year. In the past twelve months we have had triumphs and reverses, but slowly and surely the offensive is now being taken by the Allied Nations. Since the last anniversary of Hitler's fateful march into Poland, the United States has entered the war on our side, and has taken her place on the fighting fronts, on land and sea and in the air. We have also entered into a full alliance with Russia, that gallant nation which has held the Nazis at bay in spite of overwhelming odds. At the same time, we have acquired a powerful enemy and whose strength and determination will not be easily overcome. Great Britain in addition is faced with difficulty in India, and it is possible that the next year will see further blows delivered to the Empire in the East.

Position Of Germany

At this time we might compare our position with that of Germany. Hitler marked the third anniversary of the outbreak of war with a speech appealing for still further sacrifices by the people to support the war effort. He also appealed for supplies of warm clothing for the Russian front. In addition, Germany is now involved in the initial stages of the Battle of Germany. In the autumn of 1940 the Battle of Britain was fought in the skies over England. Now the Luftwaffe is defending the skies over Germany and occupied Europe. The great bombing raids, now being carried out regularly on German cities, show that we are winning this air battle. With the numbers of planes and men from the Allied nations constantly increasing there is no doubt as to the final outcome.

Canada's Effort Grows

Canada commences the fourth year of the war with the imposition of new and heavy income taxes, and with the initiation of Selective Service. Before the end of 1942, the government expects to have added 250,000 persons to the ranks of the armed services and to war industries, and as far as is possible, to have every man and woman in the place where they can give their greatest contribution to the war effort. With the armed services and industry geared to greater and greater capacity, there is no doubt that Canada is prepared to play her full part in the offensive that will eventually bring about the end of the conflict. At Dieppe the Canadians showed what they can do in battle, and the people at home must prepare to match their courage and endurance until victory is attained.

Scarcity of imported fruit is giving rise to considerable anxiety lest deficiency of vitamin C should result. Fruits are looked upon by a large public as the main source of vitamin C, and mothers who have come to regard orange juice as indispensable for the artificially fed baby and desirable for all children, are often at a loss to know what to use as a substitute. This very general reliance upon fruit, especially the citrus fruits, is partly due to popular knowledge of their value as anti-scorbutics in early voyages. It overlooks the fact, none too well known even to those interested in nutrition, that on the whole most vegetables are much richer sources of vitamin C than most fruits. The proverb about "an apple a day" would have been much nearer the truth if it had run "some cabbage each day." People whose main source of this vitamin is a daily apple get from it only one eighth of their vitamin C requirements. Plums, blackberries, grapes, pears, melons and lemons are also good in vitamin C. Brussels sprouts, cabbage, cauliflower and the salad vegetables, especially mustard and cress and watercress are seven or more times as rich in vitamin C as the group of fruits last mentioned. Some of these green vegetables, if they are cooked in such a way as to preserve the vitamin, can provide more of it, weight for weight, than does orange or lemon juice.

The optimal amount of vitamin C (ascorbic acid) needed by an average adult is 75 mg. daily. As a matter of convenience an estimate has been made by showing the number of hours supply of vitamin C yielded on this basis by 4 oz. portions of all the well known fruits and vegetables. Typical examples, arranged in order of merit are as follows:

Number of Hours Supply of Vitamin C Given by 4 ounce Portions	
Blackcurrants - raw	20
Brussels Sprouts - cooked	19
Mustard and Cress - raw	18
Strawberries - raw	15
Broccoli - cooked	15
Cabbage - cooked	12
Spinach - cooked	12

It will be observed that potatoes are not included in the table, since the method of presentation does not take account of the fact that they are customarily eaten in quantities much larger than 4 ounces. Twelve ounces daily will supply 15 hours requirements.

Vitamin C, however, is not among the most stable of the vitamins. It begins to be lost as soon as fruits or vegetables are gathered. This loss continues during storage. Part of the vitamin goes into solution in the cooking water and prevention of some of this loss is one of the main advantages of cooking potatoes unpeeled. Quick rise of temperature and fast cooking—by rapid destruction of the enzyme which would otherwise break down vitamin C—lead to greater preservation than the alternative method of gradual heating from cold water. All slow cooking methods, including hay-box cookery, are detrimental to vegetables. Use during cooking of alkalies like bicarbonate of soda increases the loss of vitamin C.

Canned fruits and vegetables may contain anything from 50% to 100% of the vitamin C of the fresh materials, the amount varying with the fruit or vegetable, and the method of canning. Cooked green vegetables, rubbed through a sieve, can be given to young children, or raw vegetables such as swedes or carrots can be finely grated or pulped and sieved.

A postal card to the Western Division Health League of Canada, 111 Avenue Road, Toronto, Ontario, will bring you a free vitamin chart for ready reference.

Had A Surprise

American Soldier In London Nods In Queen's Limousine

Private Ora Foster, 22-year-old soldier from Pontiac, Mich., said that "like most soldiers, I did all the talking" when a lady graciously gave him a lift in her limousine.

Finally she asked: "You don't know who I am, do you?" He replied: "I can't say as I do."

She identified herself as Queen Mary.

"I couldn't think of a thing to say," Foster confessed.

Foster was walking along an English country road one evening when he thumbed a ride in the big car.

You Girls Who Suffer DYSMENORRHEA

If you suffer monthly cramps, backache, distress of "irregularities," nervousness—due to functional monthly disturbances—try Lydia E. Pinkham's Vegetable Compound. Tablets (with added iron). Made especially for women. They build up red blood. Made in Canada.

GEMS OF THOUGHT

OVERCOMING

Real glory springs from the silent conquest of ourselves; without that the conqueror is only the first slave.—James Thomson.

It is not so much being exempt from faults, as the having overcome them, that is an advantage to us.—Alexander Pope.

You will find it less easy to uproot faults, than to choke them by gaining virtues.—John Ruskin.

If one lives rightly, every effort to hurt one will only help that one; for God will give the ability to overcome whatever tends to impede progress.—Mary Baker Eddy.

If any speak ill of thee, fly home to thy own conscience and examine thine heart. If thou art guilty, it is a just correction; if not guilty, it is a fair instruction.—George Herbert.

Draw the curtain of night upon injuries; shut them up in the tower of oblivion and let them be as though they never had been.—Francis Bacon.

DEFLATED NOW

Not long ago, when he regarded himself as the cock of the walk, Mussolini talked of how he meant to restore the glories of the Roman Empire. He is not crowing now. The truth about Mussolini is that he has become nothing but a deflated gas-bag.

OF MORE VALUE

Claiming \$30 and a bundle of ration books she had included by mistake in a donation of salvage in Aberdeen, Scotland, a woman was more worried about the ration books than the money.

Men Like This Bran Fruit Pudding

Defense wives who are having trouble getting their men folks to eat their daily quotas of milk and eggs should clip this recipe for All-Bran Fruit Pudding. A tempting, satisfying dessert, it contains two eggs, plenty of milk, plus dried fruit, nuts and crisp iron-rich shreds of bran. For a light meal, this is a superb finish, hearty and nourishing. These are the directions:

All-Bran Fruit Bread Pudding
1 cup 1/2-inch bread cubes
1/2 cup All-Bran
1/2 cup chopped nuts
1/2 cup chopped dates or figs
2 cups milk
1/2 cup sugar
1/2 teaspoon salt
2 tablespoons melted butter
1 teaspoon vanilla extract
To toast bread cubes and combine with All-Bran, nuts and fruit; turn into shallow greased baking dish. Beat eggs well; add milk, sugar, salt, vanilla and butter; pour over bread cubes. Place dish in pan of hot water and bake in a moderately hot oven (375 degrees F.) 30 to 60 minutes. Serve warm or cold.
Yield: Six to eight servings (8 x 8 inch dish).

The Individual Citizen's Army

A Weekly Column About This And That In Our Canadian Army.

By Alan Maurice Irwin

Three weeks ago I devoted this space to the subject of drill. Here comes the same subject again because we have been given an object lesson by our own soldiers at Dieppe in its value.

For the past two years instructors have referred to an incident at Dunkerque as an illustration of the value of drill as a discipline builder. It was the evacuation of the beach by The Guards.

Newspaper despatches said: "The Guards brought their rifles with them." That was all! But it was quite enough. No-one would have criticized them if they had left their equipment behind on that shell-swept beach—nearly everyone did leave his equipment behind and there were no recriminations.

But, "The Guards brought their rifles with them." It has long been fashionable for Line Regiments to sneer gently at the Brigade of Guards for their meticulous adherence to parade ground soldiering. The sneers were good-natured, of course, as all bickering between regiments is, and no-one really believed what he said.

Not after Le Coteau in the last war, or after Dunkerque in this!

Now we have a new tradition, a new example of how well-drilled soldiers act in a tight place—the Canadians at Dunkerque!

Here is a quotation of one of the early cables from the Channel front written by Ross Munro of the Canadian Press who went ashore with the Canadians.

"One group of the Westerners was in such good form that even after a five-hour battle they smartly sloped arms and marched aboard the boat that picked them up."

The "tankers" have earned a place in military history, too!

Of them another Canadian Press despatch said:

"Crews of the Calgary Tank Regiment, which led the way into Dieppe yesterday, drove the remnants of their battle-smashed tank formations through this town tonight."

Those two examples of the intelligent discipline that grows out of drill will be quoted by many a drill-sergeant, by many an officer lecturing to recruits in the next few years and will I hope, be borne in mind by those of us who are apt to criticize without thinking.

Some of you are bound to be asking, just about now, "what's he trying to get at? Surely he doesn't suggest that the raid on Dieppe was put on just to demonstrate the value of parade ground drill!"

No, I don't suggest that for one moment. In fact any columnist who tries to say why the Dieppe raid was made would be a fool! There are many reasons why a military high command decides to stage a raid—especially with the war conditions that confront us at present.

And the high command cannot take even the public that pays it into its confidence. We'll have to be kept guessing about it—and so will the enemy.

Perhaps its intention was to find out the defense system employed by the enemy.

Perhaps it was to draw attention from some other move.

Perhaps the idea was to find out the morale of the enemy now in France.

Perhaps it was designed to disrupt communications by causing a rush of reinforcements to the place attacked.

Perhaps it was a realistic training scheme in the co-operation of Navy, Army and Air Force.

Perhaps it was for none of those reasons, but, whatever the reason was we members of the Individual Citizen's Army may be sure that "Andy" McNaughton who would rather expend machinery than lives, had the best of all possible reasons and that the lessons learned and the knowledge gained will be used to prosecute the war and hasten the Allied victory.

In the meantime new recruits who join up here as volunteers for service anywhere will start out with squad drill without arms, the manual of arms, musketry and all the other "kindergarten" work that teaches them unity, cohesion and intelligent discipline so that they, too, when their opportunity comes, will be ready to "slope arms and march abroad."

The men who took the beaches at Dieppe and played their part in demolishing the town have found out after weary months and years of waiting what war is like.

That is something we have still to find out.

So far we have only bought a few bonds, licked a few war savings stamps, given to the Red Cross and the Buckshoe Fund—that sort of thing!

We haven't sacrificed anything. We don't sweat for the war.

Public men rap us on the knuckles if we say that Canada is not doing a full job of war work. They raise a smoke-screen of empty eloquence to boast of what is being done. They promise that some day the government will place the whole war effort on a wartime basis but in the meantime too many of us carry on with our bridge and our golf. We stick nobly to the rations of tea and coffee and sugar and gasoline—and sneak out of all-out service by buying cakes and pastries with sugar in them, by drinking tea and coffee in restaurants and hotels, by using taxi cabs to take us on our useless

errands when our own tanks are empty.

We are long on talk and short on discipline. What we need is drill, and lots of it, thrown at us by tough sergeants with a rasp in their voices. Could we march aboard with our rifles at the slope?

HELP CANADA KEEP IT

START YOUR DAY—THE WHOLE WHEAT WAY

NABISCO SHREDDED WHEAT

To help meet the strain of extra office work you need extra nourishment. And one of the best ways to get it, leading food authorities say, is to eat the "protective" foods—among which are the whole grain cereals.

Nabisco Shredded Wheat is 100% whole wheat in its fastest form, with all the bran, minerals and wheat germ retained. Include two tasty Nabisco Shredded Wheat and milk in your breakfast menu to help stay on your feet!

CHAPTER III.

The German radio propaganda stations were going full blast, trying to capitalize to the full on the rout in France. The booming, cultured voice that came over the air was declaring:

"Attention, England! Your English friend in Germany is here again to speak to you of the great events that are shaking the world. It is eight months since your government declared war. Since then, France has been utterly defeated, while your English expeditionary force is now trapped in a small area on the French coast, surrounded on all sides. There can be no escape from this foredoomed graveyard. Your government not only conceals from you the extent of this disaster, but also withholds the truth of the internal situation in England. There have already been serious riots in English cities—"

The bartender in the village tavern turned off the radio with a snort of disgust. "It's all wind and white-wash," he exclaimed.

Clem, who was on civilian defense duty, and had stopped by for a drink, heard a familiar, excited voice from the doorway. "Hello, Dad!" he cried. "Vin!" exclaimed his father, whirling. "Where did you spring from?" "Belham, Airfield," answered the boy. "I've been transferred." He looked boyishly chivalric in his natty pilot officer's uniform.

"Belham!" cried Clem. "Why, you're on the doortop?" "Yes, isn't it grand?" commented Vin. "You don't know the half of it." He pointed proudly to his officer's designation. "See that?"

"So soon?" exclaimed his father, elation blending with a more ominous feeling. "Well, great stuff. Congratulations!"

"Things are moving pretty fast," said Vin. "They cut short the course. I get eighty-five per cent. in the test. Dad, and a week's leave on the strength of it."

Despite the fact that Vin had phoned both his mother and Carol about his visit, he was astonished to find them together when he arrived home. He ran forward to embrace his mother; then Carol, as if it were the most natural thing in the world, turned simply and kissed him.

"See these?" exclaimed Vin, when he had recovered some of his poise, pointing to his insignia.

"Now you're ready for—real flying," Vin smiled. "Not only for real flying," he said, "but real —"

He stopped short, realizing he might be blundering.

"Fighting," said Mrs. Miniver, ending the sentence. In her mind's eye was her small son, of yesterday. And now here he was, still of teen age, going out to join the armored knights of the sky.

At dinner, Clem disturbed the news that Gladys, the maid, was to leave the household the next day, having joined the Women's Auxiliary Air Force. Then, with total unexpectedness, Toby turned to his father and said: "Is Vin going to marry Carol?"

Vin almost choked on the generous helping of food in his mouth. Mrs. Miniver quickly tried to change the subject. Toby repeated his query, this time directly to Vin.

"Well, Toby," said Vin, flushing.

"I haven't had the nerve to ask her yet."

"Why not?" asked Toby. "You're brave, aren't you?"

"Oh, Toby, don't be silly!" put in Judy. "Gentlemen!" cried Carol when they're eating!"

Carol turned seriously to the children. "Toby," she said, "why not ask me if I'm going to marry Vin?"

"Are you?" asked Toby, happy to be the centre of all eyes.

"If he asks me," said Carol softly. "I say, I'm not going to stand for that," said Vin, rising with an awkward gesture. "Carol, I meant to wait for moonlight and roses, but now—well, look, will you marry me?"

Carol leaned over and gently kissed him. Then Mrs. Miniver kissed her.

"My dear, you're both terribly young, but nowadays—"

The Old Books

No More Reprints in Britain Due To Paper Shortage

"You cannot buy 'Jane Eyre' in London today," we learn from James Agate's column in the London Express. "If you don't have Shakespeare at home, it's too late now. The bookshops could sell the English classics by the hundreds—if they had them."

Apparently England is continuing to produce new books—one of them is reviewed in the article quoted. But "Jane Eyre" and "David Copperfield" and "Hamlet" are reprinted for a long, slow sale, and cannot be afforded when there is a paper shortage.

It is one of the effects of war that, probably as a little foreseen as the rubber shortage, and its results can be as little predicted. The Bible is reputed to be the perennial best seller, and yet if no more Bibles were printed for a hundred years, there would still be Bibles. But how many? How much does our culture depend upon old books? That we could not know unless, when printing was stopped, all existing copies were destroyed.

Such a thing, we are told, has happened in Germany. Maybe that is the answer. But meanwhile it might be a good idea to re-read "Pickwick Papers" or "King Lear." There is much sanity left in them in a world hungering for sanity.—Chicago Daily News.

EACH KEEP HALF

Korea is the only country in the world where the marriage certificate is divided, one-half being given to the bride and the other half to the groom.

A Secret Preparation

British Doctors Testing Liquid Which Nazis Give Their Troops

A phial of colorless liquid, familiar to Rommel's Afrika Korps, has been unearthed by British authorities. It is a preparation which the Germans give their troops to increase endurance. A German doctor who left Germany in 1933 and went to London, claims that the Nazis have been testing the effectiveness of this concentrated energy-giving preparation for some years and he believes that Rommel's men are receiving it—probably in tablet form. Doctors in Britain are testing the efficiency of the preparation, which is not a drug. Apparently it has been known for some time that the Germans administered drugs to their troops, just before going into battle, but now the Nazi medical organizations are discouraging the use of drugs. They claim that the ultimate effect of these "pep" drugs is harmful—that in the end resistance to fatigue and exhaustion is lowered.—Toronto Telegram.

No Change At Present

Canadians Can Still Send Special Greetings By Telegraph

Holiday greeting telegrams and other special rate social messages will not be discontinued in Canada for the present, at any rate, J. Stewart, Services Administrator for the Wartime Prices and Trade Board said in Ottawa. He was commenting on the action of the United States telegraph companies in discontinuing these special services for the duration of the war. "No similar action is contemplated here," Mr. Stewart said.

DID YOU KNOW THAT:

—Plates courtesy Monetary Times, Toronto.

There are two Stanley Parks in Canada, and that the smaller of the two is exactly four feet square? It was established in Moncton, New Brunswick, to cover a yawning hole in the sidewalk. It was named for a traffic officer who stood point duty on that corner for a number of years. From an Associated Screen "Did You Know That" movie short.

Public worship 8 p.m.
A hearty invitation is extended to all these services.

SHARON LUTHERAN CHURCH
Divine service 11:30.

ANGLICAN CHURCH
Harvest thanksgiving services will be held in St. Mary's church on Sunday, October 4, at 2:30 p.m. The Rev. Bralant will conduct this service.

Jarow-Kinsella United Church
Sunday, September 27
"The Power and the Glory."
Kinsella—11:00 a.m.
Batts—9:00 p.m.
Visitors cordially welcome.

In serving new foods to a young child, begin with a small portion of each food and arrange it as attractively as possible. Then gradually work up to larger portions.

LOCALS

Miss Marjorie McFarland started on a business course this week at McTavish Business College, Edmonton.

Miss Lois Longmire and Mr. Henry Kasten, Jr., left this week to attend the university of Alberta. Mr. and Mrs. Ross McFarland were in Edmonton the first of this week on business.

Messrs. Steve Hlynka and Andrew Saver visited Mike Kuzyk at the University hospital where Mike underwent a serious operation recently.

Work started this week on the addition to Steve Hlynka's house. Havie Elford has returned to high school to complete his grade 12 work.

One hundred and ninety tons of scrap metal have been gathered up and shipped from the Irma district to date.

Mrs. Wm. Morse, of Drumheller, is visiting her mother, Mrs. J. A. Glover.

A farewell party for David Bacon at Crescent Hill school on Friday, Sept. 18 was attended by a large crowd. Mr. Clarke Steele presented the guest of honor with a lovely travelling kit as a token from those present. Mr. D. Bacon leaves shortly for Brandon, where he will take up his training in the R.C.A.F. as a gunner.

Mrs. W. J. Thompson of Burbank, Cal., visited this week at the home of her brother, Mr. Wellington Watson.

Mrs. J. A. Glover, who has been in the Viking hospital for the past two weeks, returned home last Friday evening.

Rev. and Mrs. Longmire and Mrs. Arnold were in Edmonton this week on business.

The first load of wheat to be delivered to an elevator at Fabyan was from the farm of Mr. Geo. Worthing on Sept. 12. It graded No. 2 Northern and was threshed by Mr. Martin Enger.

OLD RUBBER

If you think that the bit of old rubber that you can contribute can make little difference, consider these facts: An outworn tire can provide as much as sixteen pounds of reclaimed rubber and an inner tube about two and one half pounds. Fifty feet of garden hose yield twenty pounds of scrap and a single pair of four-buckle all-rubber arctic shoes three pounds. There is a pound of rubber in every foot of rubber floor matting and another pound in an old hot water bottle. In most cases, reclaim constitutes from 20 to 40 per cent of the rubber articles that we use.

EFFECT OF CRESTED WHEAT GRASS ON SOIL MOISTURE

(Science Service News)

A large scale regrassing program has been carried on during the past five years, in what is known as the Brown soil zone of western Canada, state J. J. Lehane, soil research laboratory, Swift Current, Sask. Crested wheat grass has germinated and survived better than other grasses and provided a relatively efficient utilization of moisture under dry conditions. It is now the predominant cultivated grass in the prairie provinces. While the regrassing program has been primarily for the stabilizing of areas subject to erosion and increasing the grazing capacity of abandoned fields and over-grazed areas, the effect of the grass on the chemical and physical properties of the soil is also important. This is one of the problems under investigation at the Soils Research Laboratory at the dominion experimental station, Swift Current, Sask. The field capacity of a soil is the moisture held by a continuous film; the permanent wilting point is the moisture held by the soil after the plants permanently wilt. The average moisture capacity is the difference between the field capacity and the permanent wilting point. It is the most important soil moisture measurement because it is the amount of moisture available to the plant.

Crested wheat grass greatly increased the field capacity of the sandy and medium textured soils and also increased the wilting point, though to a lesser degree, thus giving an increased available moisture capacity. The same trend held true after the soil was decomposed for 5 and 10 month periods. The average increase in the available moisture capacity would be equivalent to 1/3 of an acre inch of water in the sandy soils and 1/6 of an acre inch in the medium textured soils. The field capacity and the wilting point values of the clay soils increased slightly, but there was no increase in the available moisture capacity.

FORMER NURSES NEEDED NOW

The provincial department of health again points out the difficulty within the province of obtaining professional nurses. The shortage of nurses is largely due to war conditions. The department suggests that there may be in every district many married nurses who probably have mature families or no family responsibilities, and could conveniently be spared from their home duties. The statement also suggests that a canvass be made of the municipal hospital districts in this connection. Any nurse who could help meet this emergent situation and be prepared to assist in any hospital in need of nursing help, would indeed be rendering a real service and also contribute to the present war effort.

SALVATION ARMY HOME FRONT APPEAL

Annual nationwide call of the Salvation Army to provide funds for its various services, is being made throughout Canada commencing September 21. The Salvation Army at home and overseas provides a home in camp at the 110 camps operated in Canada. On the home front the Army is endeavoring to carry on its usual program among those in need, in an effort to make certain those suffering on the home front should not be neglected because of the war. This service in Canada includes fresh air camps, hostels for both men and women, prison and police court work, hospitals, women's social services and dozens of other such activities which most Canadians are well aware of. The campaign is being conducted with complete authority of the Canadian government.

As far as we know no active canvas is being made in this district but we are sure any contributions will be gladly received by addressing the Salvation Army at Edmonton.

FIRE PREVENTION IN THE HOME

The best place for fire prevention to start is in the home. Charity should start there according to the ancient saying, and certainly safety should come first. In order to safeguard the home, inspection should be made, not only during Fire Prevention Week but periodically throughout the year. All heating and lighting equipment should be examined, chimneys and pipes kept clean of soot. No smoke pipes should be permitted through combustible walls; disposition of ashes should be safeguarded. The fuse cabinet should be of metal or asbestos lined. Lighting circuits should not have fuses of over 15 amperes and blown fuses should not be bridged or otherwise tampered with. All drop cords should be insulated, and not supported on any conductive material. Electric irons should always be detached when not in use and kept on metal stands.

Matches should be kept out of the reach of children and the child should be regularly taught the danger of fire and not to play with matches. The safest type of match to use is the "safety match" which may be lighted only on the box. Closets should be kept clean and all rubbish removed from the entire premises. Cleanliness is next to Godliness. Perhaps that is the reason it always plays such an important part in fire prevention.

Smokers should be careful of the disposition of cigarette butts and ashes from their pipes. Above all, smoking in bed should not be indulged in.

Every householder should regard it as a patriotic duty to prevent fires in his home during these critical times. By cleaning out his attic and basement of all old papers, broken furniture and other combustible material he will not only assist the salvage campaign but will be reducing the fire hazards in his home. Let every citizen realize that a fire today is a national calamity and that every fire prevented is a conservation of our resources which can be turned to our war effort.

When you have roast beef left over, dice it and combine with chopped celery, green pepper and onion and mayonnaise. This will give you an appetizing and substantial salad for lunch or supper.

If table oilcloth is rubbed over occasionally with liquid wax and then polished, it will wear longer and look better.

The Flamingo is usually found in Southern Europe, Africa and some parts of Florida. It has long legs and neck, webbed feet and a broad bill. These birds usually travel in large flocks.
